

SCOUTING REPORT — BETHEL

Film-charted tendencies. "Offense" = Bethel with the ball; "Defense" = Bethel defending. Percentages are share of charted plays unless noted.

KEY OBSERVATIONS

Bethel on offense

- Formation is a strong play-type indicator: Dodge & Tray ~90% run; Tag, Triple, Trips ~100% pass.
- Run has been inefficient — 3.1 YPC despite a run-heavy early-down profile.
- 3rd & 4th-and-long: 83–88% pass.
- Passing is their more productive phase: 80% completions; 13% of passes explosive (16+).

Bethel on defense

- Zone-based: Cover 4 (35%), 3 Roll (32%), 3 Sky (17%); man ~8%.
- Has allowed a 58% offensive success rate.
- Softest by results: 3 Sky (86% success allowed), 3 Roll (72%).
- Explosives allowed cluster vs Cover 4 (25% of those snaps).

PART 1 — BETHEL OFFENSE

OVERALL

- Play mix 50% run / 49% pass; overall success rate **40%**.
- Run **3.1 YPC** · Pass 6.4 YPA · 80% completions · ~2% scramble.
- Explosive rate: Run 7% (7/89) · Pass **13%** (12/86).

TENDENCY BY DOWN

Down	Lean
1st	Run 66%
2nd	~50 / 50
3rd	Pass 68%
4th	Pass 62%

TENDENCY BY FORMATION

Formation	Lean	Formation	Lean
Dodge Lt/Rt	Run 94/86%	Tag Lt/Rt	Pass 85/100%
Tray Lt/Rt	Run 87/100%	Triple Lt/Rt	Pass 100%
Twins	Pass 60%	Trips	Pass 100%
Dak	Pass 66%		

TENDENCY BY DOWN & DISTANCE

Down	Distance	Lean
1st	Medium (4–7)	Run 100%
1st	Long (8+)	Run 66%
2nd	Long (8+)	Pass 71%
3rd	Medium (4–7)	Pass 75%
3rd	Long (8+)	Pass 88%
4th	Short (1–3)	Run 100%
4th	Long (8+)	Pass 83%

EFFICIENCY BY FORMATION

- Most productive: Tag Rt (75%), Tray Rt (73%).
- Least productive: Dak (0%), Trips (23%), Triple Lt (26%).

Bethel is run-heavy on early downs but averages only 3.1 YPC, with a 40% overall success rate. Behind schedule (2nd/3rd/4th & long) they become heavily pass-oriented (71–88%). Explosive production comes through the air, and formation usage correlates strongly with run/pass.

PART 2 — BETHEL DEFENSE

DEFENSIVE FRONTS

Front	Use	Success allowed	Expl (15+)
Over	54%	67%	13%
Stack	29%	64%	10%
Under	12%	75%	16%
Bear	3%	66%	0%

Stack also allows 21% "long" (8–14 yd). Bear stuffs runs (66% for a loss) but is only 3% of snaps.

FRONT BY DOWN & DISTANCE

Down	Distance	Most-used front
1st	Medium (4–7)	Over (66%)
1st	Long (8+)	Over (68%)
2nd	Short (1–3)	Stack (100%)
2nd	Medium (4–7)	Even: Bear/Over/Under (33% ea.)
2nd	Long (8+)	Over (62%)
3rd	Short (1–3)	Over (50%)
3rd	Medium (4–7)	Over (100%)
3rd	Long (8+)	Stack (52%)
4th	Short (1–3)	Over / Stack (50% ea.)
4th	Medium (4–7)	Over (50%)
4th	Long (8+)	Stack (100%)

COVERAGES

Coverage	Use	Success allowed	Expl (15+)
Cover 4	35%	58%	25%
3 Roll	32%	72%	0%
3 Sky	17%	86%	13%
Man (all)	~8%	—	—

Overall offensive success rate allowed: **58%**.

BY OFFENSIVE FORMATION FACED

Formation seen	Most-used front	Most-used coverage
Dodge	Over (80%)	Cover 4 (100%)
Triple	Over (52%)	Cover 4 (58%)
Dak	Over (63%)	3 Roll / 3 Sky / Cover 4 (27% ea.)
Doubles	Over (57%)	3 Roll / 3 Sky (42% ea.)
Beast	Over / Stack (42% ea.)	3 Sky (50%)
Trailer	Over / Stack (37% ea.)	3 Roll (37%)

Offensive formations Bethel faced (7+ plays each). Percentages = share of snaps from that formation.

The numbers show a zone-first defense (Cover 4 and Cover 3 variants) that has allowed a 58% success rate — weakest in 3 Sky (86%) and 3 Roll (72%). Explosive plays allowed cluster in Cover 4 (25%) and the Stack front, and their front/coverage choices correlate with down/distance and offensive formation.
